## PROFILE

Aspiring Full-Stack Developer skilled in **Java, React.js, Node.js, and MongoDB**. Passionate about building responsive, user-focused applications and solving challenges through creative problem-solving and clean code.

## EDUCATION

**B.E. in Information Science and Engineering (ISE)**, Global Academy of Technology — CGPA: 8.83 (Dec 2022 – July 2026), Bangalore, India

## SKILLS

**Frontend:** HTML, CSS, JavaScript, React.js, TailwindCSS

**Backend:** Node.js, Express.js

**Database:** MongoDB, SQL

**Languages:** Java, Python

**Tools:** GitHub, VS Code, Tableau, Power BI, Excel

**Soft Skills:** Problem-solving, Analytical Skills, Communication Skills

## CERTIFICATIONS

- TechA Web Development using HTML and CSS Foundation Certification— Mar 2024 - [View Certificate](#)
- Java Programming Completion Certificate – Jan 2025 - [View Certificate](#)
- Inceptrix Hackathon – May 2025 - [View Certificate](#)

## EXPERIENCE

**Inceptrix Hackathon 2025** [Jain University, Bengaluru]

May, 2025

Frontend Developer

- Participated in the **Inceptrix Hackathon**, working on a project titled Farm Connect during an intensive 24-hour on-campus hackathon.
- Focused on developing a responsive and user-friendly frontend using **React.js**, enabling farmers to input key data and receive real-time recommendations on crop requirements, fertilizer quantities, and irrigation needs.
- Collaborated in person with teammates who implemented the backend services, ensuring seamless integration between frontend interfaces and server-side logic.
- Our team's project was shortlisted in the top **100 out of 500** project ideas, demonstrating innovation, technical skills, and effective teamwork in a high-pressure, collaborative environment.

## PROJECTS

**Real-Time Multilingual News Tracker** | [Link](#)

- **Developed a responsive multilingual news web app** using **React** and **NewsData.io API** to fetch real-time news with category-based filtering, language selection (Hindi, Kannada, Tamil, etc.), and image-rich content cards for enhanced user engagement. **Designed an intuitive UI** featuring dark/light mode toggle, and a responsive visually appealing interface optimized for desktop, tablet, and mobile devices.

**Noteshelf – Web-Based Notes Management Application** | [Link](#)

- Built a full-stack **Node.js** and **Express** application with EJS templates that allows users to create, view, and edit text-based notes directly from the browser. Integrated file handling with Node.js fs module for persistent storage and dynamic routing for seamless navigation. Styled the interface with **Tailwind CSS** for a clean, responsive design, ensuring a smooth and intuitive user experience.

**UserTrack – User Management Web Application** | [Link](#)

- Developed a full-stack CRUD app for user profile management using **Node.js, Express.js, MongoDB, and EJS**. Built features for adding, editing, viewing, and deleting data with validation, and designed a responsive UI using **TailwindCSS**. Used Mongoose for data storage and EJS for dynamic rendering.
